

Job Posting

POSITION:

Intermediate Environmental Scientist, Full Time

LOCATION:

Edmonton AB

THE COMPANY:

Established in 2002, Ecoventure Inc. is a leading environmental consulting company focused on providing Canada's Oil and Gas, commercial and industrial, developers, and government clients with unparalleled service. From pre-disturbance planning and environmental monitoring to decommissioning, remediation, and reclamation, at Ecoventure we pride ourselves on providing common sense solutions to complex technical problems. Ecoventure is committed to safety, professional excellence, technical quality, and client satisfaction in everything we do.

THE POSITION:

Participate (as an Intermediate Environmental Scientist) in the application of Ecoventure's project delivery system to achieve the following project delivery strategic objectives: health, safety, environmental responsibility, client expectations for quality, schedule and budget; financial performance for project specific targets; project team and field program expectations; operational performance and business unit expectations; and quality.

Key Responsibilities to include:

Work at an intermediate level under the supervision of a senior professional as needed, in Conservation and Reclamation projects based on area of expertise and career goals.

- Conservation and Reclamation
 - Manage Conservation and Reclamation and land classification projects including soil classification and mapping, reclamation site inspections, preparation of reclamation plans and cost estimates, supervision of site activities and heavy equipment, vegetation management programs and all related progress reporting and project management
 - Involved with an aggressive vegetation management program, to document, monitor and control invasive and problem species via mechanical and chemical application.
 - Completion of soils and vegetation Detailed Site Assessments (DSA's) to current criteria including preparation of DSA reports for senior professional review.
 - Complete Pre-Disturbance Assessments including project setup, field activities, and reporting.
 - Assist in Biological, Waterbody, Natural Site Assessments, Environmental Field Reports, Natural Area Management Plans, and Environmental Impact Assessments, as required.
- Review background information and compile reclamation certificate application, acknowledgement of reclamation and certificate of restoration packages.
- Prepare Phase I Environmental Site Assessment (ESA) reports including site inspections
- Assessment and Remediation
 - As needed, assist on Phase II ESA, Phase III ESA, and Spill Response/Assessment projects with support from senior professionals including field activities and preparation of technical reports for senior professional review
- Uphold Ecoventure's strong commitment to the Health and Safety Program and represent Ecoventure in conferences and industry seminars as well as liaising with all levels of stakeholders

The individual's strengths, experience and preference will be considered and allocated appropriately.

THE INDIVIDUAL:

The successful candidate should possess the following competencies and experience:

- Post-secondary education in natural resources management or environmental sciences.
- Currently hold, or be working towards a professional designation as P.Ag, P.Geo, P.Eng, or P.Biol.
- 4 to 8+ years of related work experience. Related work experience and career goals will be used in determining appropriate position.
- Must have a proficiency in soil classification, soil mapping, and soil monitoring/handling during construction operations.
- Strong vegetation identification skills, and understanding of vegetation establishment, control methods and prescription/implementation.
- Excellent organizational, analysis and problem solving skills, interpersonal skills, leadership skills, and conflict management skills, as well as assisting on coordinating, analyzing, and synthesizing information to develop innovative solutions to problems, working with people and advising others.
- Strong understanding of computer programs such as Microsoft Office, Adobe Acrobat and GIS Software.
- An agricultural, forestry, and strong soils background, current safety, H2S, First Aid and CPR, WHMIS, Ground Disturbance Level II, ATV Training, and clean driving record are all required for this position.

APPLICATION:

We are committed to employment equality and encourage applications from all qualified career seekers. Interested and qualified applicants should submit a Cover Letter, Resume and References to the contact below. Please ensure all applications are concise and highlight qualifications as related to the responsibilities above.

Thank you very much for your time and consideration in providing your resume to Ecoventure, however only the perspective candidates will be contacted for an interview.

APPLICATION DEADLINE:

Application deadline for consideration is February 24, 2018
