JOB REFERENCE #24031CR

POSITION:	Project/Program Manager
BUSINESS UNIT:	Conservation and Reclamation
LOCATION:	Edmonton or Calgary, AB
STATUS:	Full-time

THE COMPANY:

Established in 2002, Ecoventure Inc. is a leading environmental consulting company that provides unparalleled service to Canada's Oil and Gas, commercial and industrial, developers, and government clients. We pride ourselves on providing common-sense solutions to complex technical problems, from pre-disturbance planning and environmental monitoring to decommissioning, remediation, and reclamation. Ecoventure is committed to safety, professional excellence, technical quality, and client satisfaction in everything we do.

Ecoventure offers a dynamic and flexible work environment with room to grow. We offer a comprehensive benefits package, profit sharing, professional development opportunities, flexible/remote work options, excellent compensation, and the opportunity to work with an incredible group of people who are passionate about what they do and who they work with.

POSITION SUMMARY:

This role provides an opportunity for the conservation and reclamation group to complete exciting and dynamic projects throughout western Canada. The ideal candidate has strong technical, organizational, and leadership to support the growth and development of Ecoventure. The project work is centred mainly in Alberta, and the position will require some travel to remote work sites.

The selected candidate will be instrumental in executing Ecoventure's project delivery system to achieve the following project delivery strategic objectives: health and safety, client expectations for quality, schedule, and budget, financial performance for project-specific targets, operational performance and business unit expectations, and quality.

The successful candidate will be responsible for providing support in the following areas:

- **Technical**
 - Manage and execute Conservation & Reclamation and Land Classification projects, including:
 - preparation of reclamation plans and cost estimates,
 - soil classification and mapping,
 - reclamation site inspections,
 - Major and minor reclamation projects involving heavy equipment and aggressive vegetation and re-vegetation management programs.
 - Complete and provide professional sign-off on Detailed Site Assessments (DSA) (soils & vegetation) and DSA Record of Observation (RoO).
 - Complete and conduct Pre-Disturbance Assessments and Soil Surveys.
 - Prepare Reclamation Certificate Applications, Acknowledgement of Reclamation and Certificate of Restoration packages.
 - Mentor junior staff.
- **Project Management**
 - Resource management and project staff allocation.
 - Project budget, logistics, and schedule management and reporting.
 - Proposal preparation and cost estimating.
 - Assist in business development.

- Uphold Ecoventure's Quality Management System; and
- Uphold Ecoventure's strong commitment to the Health and Safety Program, representing Ecoventure in conferences and industry seminars and liaising with all stakeholders' levels.

This position will allow the successful candidate to work with a diverse and experienced team. The role offers involvement in all aspects of projects from start to finish.

Qualifications:

The successful candidate should possess the following competencies and experience:

- Bachelor's degree or diploma specializing in soil science, natural resources management or environmental sciences appropriate to the work description.
- Currently holds a professional designation as P.Ag., P.Biol., P.Chem., P.Eng., P.Geo., or R.T.Ag.
- 7+ years of practical experience in executing reclamation in the oil and gas industry in western Canada.
- Must be proficient in soil classification, mapping, and monitoring/handling during construction operations.
- Strong vegetation identification skills and understanding of vegetation establishment, control methods and prescription/implementation.
- Excellent organizational, analytical, problem-solving, interpersonal, leadership, and conflict management skills; assisting in coordinating, analyzing, and synthesizing information to develop innovative solutions to problems, working with people and advising others.
- Strong understanding of computer programs such as Microsoft Office, Adobe Acrobat, and GIS Software.
- Excellent attention to detail and strong critical thinking skills.
- H2S, First Aid and CPR, WHMIS, Ground Disturbance Level II, ATV Training, and a clean driving record are required.

APPLICATION:

We value people, ethics, integrity and honesty, professionalism, innovation, quality, technical excellence, teamwork, recognition of individual contributions, sustainability, and a satisfying and fun workplace.

We are committed to employment equality and encourage applications from all qualified career seekers. Interested and qualified applicants should submit a Cover Letter, Resume and References to the contact below. Please ensure all applications are concise and highlight qualifications related to the above responsibilities. Please quote the job reference number above in all communication.

Ecoventure offers a comprehensive benefits package, professional development opportunities, flexible/remote work options and excellent compensation.

Thank you very much for your time and consideration in providing your resume to Ecoventure; however, only the prospective candidates will be contacted for an interview.
